

TEST AGREEMENT

YOUR PARTNER IN DIGITAL TESTING

Making
tomorrow
**safer than
today.**

A FULLY DIGITAL TESTING EXPERIENCE

Integrate accredited hydrostatic pressure testing directly into your workflow.

Testing starts immediately, and results are delivered automatically to Pipeson Data Manager: fast, traceable, and completely manual-free.

External testing that functions as an in-house digital workflow

Testing data should move at the speed of your workflow. Information flows automatically and securely from Element Online to Pipeson, no manual handling required.

Delivered Automatically

- Test Data
- Accredited Reports
- Sample Burst Photos
- Project Information & Specifications
- Field Comments & Notes

Everything arrives pre-sorted, linked to the correct project, and ready for analysis.

Your Key Benefits

- Eliminates manual uploads
- No time spent searching for files
- Secure handling with no risk of information loss
- Full traceability from sample to decision

"All data and files are automatically sorted, linked within your Pipeson system, and visualized in a dashboard."

INTERACTIVE DASHBOARD - YOUR CONTROL TOWER

Get a real-time, all-in-one view of your operations. Our interactive dashboard turns complex data into clear, actionable insights. So you can monitor performance and spot issues early, and make faster, confident decisions.

Real time insights

- **Live KPIs for active projects:** Always know current performance and status
- **Early risk and delay warnings:** Detect issues before they impact delivery
- **Test station progress tracking:** Monitor workflow across all stations in real time
- **Detailed drill-down views:** Access data for each pipe, test, or project instantly

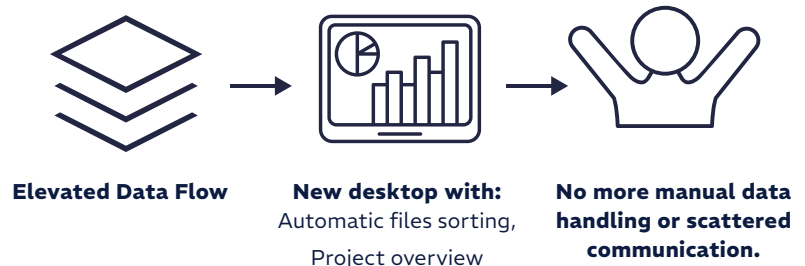

"Interactive dashboards clearly present priorities, risks, and progress."

Designed for professionals who rely on accurate insights

- Instant visibility into testing progress
- Faster go/no-go decision making
- Clear reporting for internal stakeholders

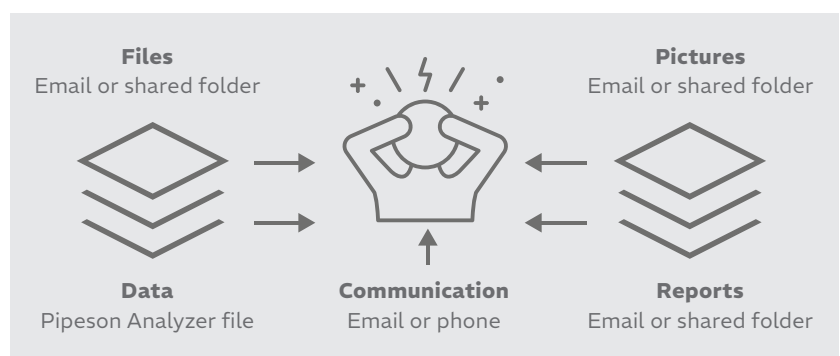

ELEMENT NEW WORKFLOW

Pictures, files, data, Element reports, communication:
Element Online - one pipeline for all data and files via Pipeson Data Manager communication.

INDUSTRY STANDARD

Customer compiling overview and structure – A difficult task.

WHY SET UP A TEST AGREEMENT TODAY?

KEEP YOUR PROJECTS MOVING WITHOUT DELAYS.

A Test Agreement secures accredited hydrostatic pressure testing whenever you need it even if your internal lab is fully booked.

"Testing begins immediately."

You gain

- Guaranteed access to the world's largest plastics pipe testing laboratory
- ISO/IEC 17025 accredited results recognized worldwide
- Rapid start-up with no retainer required
- Digital workflow that reduces administration and speeds up decisions

Why Leading Companies Choose the Test Agreement

- **Digital integration:**
More than a supplier: a connected part of your digital workflow.
- **Operational speed:**
Rapid start, automated data flow, and real-time dashboards provide constant visibility.
- **Accredited confidence:**
ISO/IEC 17025 accredited results recognized by customers and certification authorities worldwide.
- **Scalable capacity:**
Testing capacity scales from individual samples to large volumes across the full temperature and pressure range.
- **Human expertise:**
Expert support: one contact, full confidence.

HOW IT WORKS

Element can help you set-up Pipeson Data Manager today!

1

SHIP YOUR SAMPLES

Predefined onboarding ensures a fast start with no setup delays.

2

TESTING BEGINS IMMEDIATELY

Access to more than 5,000 pressure testing stations ensures immediate available capacity.

3

DATA FLOWS AUTOMATICALLY

Element Online delivers all test data and documentation directly into Pipeson Data Manager.

"Everything digital, everything connected: your project data delivered via Element Online."

4

REAL-TIME UPDATES

Always see your KPIs, risks, and progress at a glance.

5

FASTER, CLEARER DECISIONS

Your Element project manager remains your dedicated technical contact throughout the project.

ELEMENT + PIPESON = ONE SEAMLESS WORKFLOW

FROM SAMPLE ARRIVAL
TO FINAL REPORT,
EVERYTHING CONNECTED,
EVERYTHING DIGITAL.

UPGRADE YOUR TESTING WORKFLOW TODAY

Choose Your Element Test Agreement Package

FLEX

Pay as you go

- ☒ Start testing immediately no commitment.
- ☒ Fast onboarding, no risk, full flexibility

PROJECT

Project Based

- ☒ A complete testing partner for your development phase.
- ☒ Fixed scope & cost, Dedicated planning, Faster development cycles.

CAPACITY

Pre-paid Capacity

- ☒ Your reserved, always available testing lab.
- ☒ Guaranteed capacity, Priority access, Predictable budget, Faster time-to-market

Prepare today. Start testing immediately when the need arises.
